OPTIMIZE YOUR POWER

¡DISCOVER THE K-BOX!

YOUR PHOTOVOLTAIC PANELS ARE GENERATING A POWER OF **7,20 kW +**

BUT YOU ARE CONSUMING

5,00 kW -

WHERE IS THE REMAINING 2.20 kW?

APPROXIMATELY, THE DIFFERENCE BETWEEN THE DISCOUNT ON THE kWh BILL RETURNED TO THE GRID (SURFACE) AND THE COST OF THE kWh CONSUMED IS

0,27€ kWh

OVER ONE MONTH, YOU CAN SAVE FROM **30€/MONTH** USING YOUR SURPLUS IN HIT TO RETURN THEM*

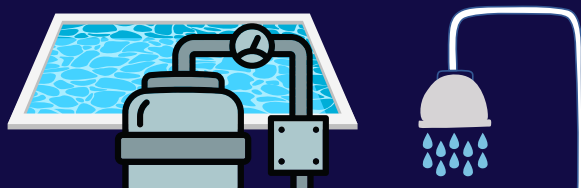

YOUR SURPLUS, YOUR DECISION

HOW DOES THE K-BOX HELP?

MANAGE ENERGY

You decide whether, for example, to activate the pool pump with 730w surplus.

If you don't want to activate aerothermal management, you can do that too. With the K-BOX, you decide.

*The comparative difference is between an average home with a 4kWp photovoltaic installation, water pump and aerothermal energy that incorporates K-BOX and one that does not incorporate K-BOX.
